### PRE-OPERATIVE BLOOD WORK

If your pet is in for anesthesia/surgery, there are inherent risks that are unavoidable. We will perform a full physical examination on your pet before administering the anesthesia. However, we highly recommend a pre-op blood profile to be performed for the purpose of ensuring that your pet has normal major organ function before anesthesia. This includes indicators of anemia, infection, dehydration, kidney function, and liver function. By performing this pre-op blood profile, we will be better able to rule out pre-existing internal problems that may not be evident physically but could lead to serious complications. There is an additional \$52.00 fee for these important procedures.

\*\*Pets present today for dental procedures, and animals 7 years of age or over MUST have this performed before anesthesia because of increased risk of problems in older patients and increased time under anesthesia for dental prophylaxis. For younger animals, you may decline this if you wish to do so.

\_\_\_\_\_ Yes, Please complete the blood work                      \_\_\_\_\_ No, I decline the recommended blood work.

### INTRAVENOUS FLUIDS

During surgery a pet's natural reaction to general anesthesia is for blood pressure to drop. This drop may be life threatening or also lead to damage to their kidneys. In an effort to prevent this from occurring we offer the placement of an intravenous catheter to facilitate the administration of IV fluids to help support kidney function and regulate blood pressure. The anticipated cost is \$49.00 for this important safety measure.

\_\_\_\_\_ Yes, Please establish I.V.'s for my procedure.                      \_\_\_\_\_ No, I decline\*\*

\*\*Should an emergency occur during your pet's procedure and an intravenous catheter need to be placed the charge will be \$80.00

### POST-ANESTHETIC NAUSEA TREATMENT

We know that after anesthesia many of our patients experience vomiting, nausea or a slow return to normal appetite. A new anti-nausea medication has been shown to reduce nausea and vomiting by 90% and speed a return to normal appetite after surgery (6 hours vs. 20 hours in a recent study). The cost of the injection is for cats and dogs up to 49.9lbs the post-anesthesia nausea treatment is \$25, and for Dogs 50lbs and above the post-anesthesia nausea treatment is \$35

\_\_\_\_\_ Yes, I would like my pet to receive a post-anesthesia nausea treatment

\_\_\_\_\_ No, I decline a post-anesthesia nausea treatment

### ELIZABETHAN COLLAR

Surgical Procedures result in incisions that must be closed with sutures. While most surgery patients leave this area alone some patients bite and pull at the sutures and pull them out. While an elizabethan collar will provide a measure of protection this is not a guarantee that the pet will not remove the sutures. If this should happen the fees necessary to repair/re-suture the incision site will be your responsibility. To assist in preventing this from happening we offer elizabethan collars for purchase from \$3.80-7.50.

\_\_\_ **Yes**, I would like to purchase an elizabethan collar  
collar

\_\_\_ **No**, I decline an elizabethan collar

**\* In the event my dog is in heat there is an additional fee of \$35-\$62, by initialing I would like the procedure to be done \_\_\_\_\_ Initial**

**\* If my pet is pregnant there is an additional fee; CATS- \$30 - \$35 DOGS- \$65 - \$90, by initialing I would like the procedure to be done. \_\_\_\_\_ Initial**

If your pet has fleas we will need to treat him/her in order to avoid contamination to others, your pet will only be treated should your pet have fleas. Unless you prefer another product your pet will be treated with CAPSTAR (\$7.00)

Alternate Flea Control Preference \_\_\_\_\_

Please understand we request all surgeries check in between 7:30 and 9am so a proper surgery schedule can be established and patients can be given necessary pre-surgery treatments before their procedure.

We anticipate patients having routine procedures being able to go home in the afternoon and ask for your understanding if unforeseen circumstances (i.e. emergencies, or longer than anticipated procedures)

arise which may cause your pet to be ready to go home later. Upon picking up my pet(s), **I understand that payment is due in full. This facility accepts cash, debit, Visa, Mastercard, Discover, & Care Credit, but DOES NOT ACCEPT CHECKS OR AMERICAN EXPRESS.** I also understand that a carrier must be provided for my cat at the time of pick up or one WILL BE PROVIDED FOR ME AT AN ADDITIONAL COST of \$7.00

I authorize Willamette Valley Animal Hospitals to perform the above procedures on my pet today, and I understand that there may be risks, especially with anesthesia. I expect all procedures to be done to the best of the abilities of the professional staff. I realize that no guarantee or warranty can ethically or professionally be made regarding the results or cure. I also authorize the hospital director and her staff to provide veterinary services as requested or in emergency circumstances to follow through with such procedures as necessary for the well being of my pet. I understand that they will contact me as soon as possible with the number provided above in an emergency to discuss cost, but if I am unavailable, emergency procedures or resuscitation procedures are authorized (additional costs may apply).
